

# WAKOL RS 5935 Edging Strips

## Technical Information

### Area of application

Self-adhesive, permanently elastic edge strips made from polyethylene to be used before applying levelling compound in thicker layers and before applying WAKOL Z 515 Thin Screed.

### Technical data

Material:	5 mm thick and 50 mm high self-adhesive PE insulation strips
Delivery:	Rolls, each 25 m/10 rolls per PE bag
Storage time:	12 months at room temperature
Storage temperature:	store in a cool location not sensitive to frost
GISCODE:	not applicable

### Usage

Self-adhesive insulation strips that are simply bonded to the wall. The high adhesive force ensures successful bonding on a wide range of subsurfaces.

### Important

Do not apply adhesive to finished surfaces.

We guarantee the uniform high quality of our products. All data is based on tests and many years of practical experience and refers to standardised conditions. The variety of materials used and the different construction site conditions, which lie beyond our control, preclude any claims based on this data. We therefore recommend making sufficient trials. Accompanying flooring manufacturer's instructions and the current national standards must be observed. We gladly provide technical advice.

The product data sheets can be found in their latest version at [www.wakol.com](http://www.wakol.com).

This Technical Information of 06.02.2024 supersedes all previous versions.
