Experience – Wakol is a global market leader in cork adhesive programs

WAKOL®
Anspruch verbindet

Wakol Cork adhesive program – very low-emission alternatives for the installation of cork flooring!

Specially formulated for the demands of cork flooring

Cork flooring involves special requirements of the adhesives to be used with regard to dimensional stability, initial adhesion and durability. With Wakol, you can be assured of a product for all types of cork flooring and installation conditions. All without compromising installer and consumer protection and using state-of-the-art technology:

WAKOL D 3540 Cork contact adhesive

- For reliable bonding of all natural-cork flooring
- Also suitable for bonding natural-cork wall tiles
- Use as pre-coating permits working in large areas and under time demands
- High installation reliability thanks to contact bonding that can immediately be subjected to use
- Great economy from high coverage rates
- Very low in emissions, EMICODE EC1 PLUS
- Qualifies for LEED Credit EQ 4.1. Low Emitting Materials – Adhesives and Sealants*

WAKOL D 3513 Cork pre-coating

- For the mechanical pre-coating of natural-cork flooring and wall coverings
- Pre-coating is possible up to 6 months before installation
- Forms a secure contact adhesive system in combination with WAKOL D 3540 Cork contact adhesive
- Extremely economical due to high coverage rates
- Very low in emissions, EMICODE EC1 PLUS
- Qualifies for LEED Credit EQ 4.1. Low Emitting Materials – Adhesives and Sealants*

* This information is based on the USGBC v3 2009 rating system and should be checked against any more current information

WAKOL MS 260 Parquet adhesive, firm-flexible

- For bonding all types of ready-to-install cork flooring
- Makes installation possible over radiant heat
- Reduced sound transmission
- Very low in emissions, EMICODE EC1 PLUS R
- Qualifies for LEED Credit EQ 4.1. Low Emitting Materials – Adhesives and Sealants*

WAKOL D 3210 PVC Cork adhesive

- Special product for all PVC-coated cork flooring
- Single application adhesive for simple use
- Extremely hard adhesive bond ensures the required dimensional stability
- Extremely high adhesive strength allows long-term use
- Solvent-free, GISCODE D1
- Very low in emissions, EMICODE EC1 PLUS

Safety instead of risk

Wakol Cork adhesives have already proven themselves on millions of sq ft of flooring throughout the world. Benefit from Wakol's unrivalled experience!
